

Dear Cecilio:

Again, please accept my sincerest thanks for the great care Hospital Clinica Biblica provided for my sensitive medical need. I have nothing short of admiration, appreciation and supportive comments for the treatment, the medical attention, both the administrative as well as the medical staff. Believe me, I shall be voicing these feelings to who-ever will hear me here in the Washington, DC metro area. Remember, I work with medical staff from National Institutes of Health, several hospitals, doctors, nurses, medical social workers, therapy and support medical staff.

I think your facility is one of the finest I have had the pleasure of being treated at, and it would give me great pleasure to not only recommend you to friends and relatives, but also to recommend you to some of the hospitals with whom I work with my lecture and seminar series on Stroke and its after math.

Thank you Cecilio, I am grateful and pleased for the services rendered.

Sincerely,

**Dorita deLemos Down, January 2008**
